EDITOR IN CHIEF ANNOUNCEMENT

TOTAL WITHDRAWAL

This is a retraction article on the article published in issue 3, volume 2, of this newspaper, entitled “Implantologia nas deformidades oculopalpebrais em pacientes com câncer”.

RETRACTION

I inform that it was detected by our editors that the article entitled “Implantology in oculopalpebral deformities in cancer patients”, published in issue 3, volume 2 of the BJIHS is actually a literal plagiarism, with only the Portuguese translation of the original “CURI, Marcos Martins et al. Extraoral implants in the rehabilitation of craniofacial defects: implant and prosthesis survival rates and peri-implant soft tissue evaluation. Journal of oral and maxillofacial surgery, v. 70, n. 7, p. 1551-1557, 2012. ”, available at: <https://pubmed.ncbi.nlm.nih.gov/22698291/> .

When we noticed this serious situation of plagiarism and fraud, the article was immediately removed from the newspaper and we contacted the author Renata Tavares de Souza Cabral. She showed surprise at what happened and informed that she was not aware of this publication and that even the co-authors had no knowledge about the publication and asked for an immediate investigation of the newspaper about what happened.

After severe internal investigation, we detected that the article was edited by the collaborating editor Dra. Lauane Gentil. When questioning the publisher Dr. Lauane Gentil about what happened, it just stated that “I don't know what's going on, I think there was a confusion on my part”

In view of this vexing situation for the BJIHS, I inform you that the following measures have been taken:

1- Full retraction to the authors Marcos Martins Curi, Marcelo Ferraz Oliveira, Giuliano Molina, Camila Lopes Cardoso, Loretta De Groot Oliveira, Per-Ingvar Branemark, Karina de Cássia Braga Ribeiro, who actually wrote the original article “Extraoral implants in the rehabilitation of craniofacial defects: implant and prosthesis survival rates and peri-implant soft tissue evaluation. ”

2- Retraction to the authors Renata Tavares de Souza Cabral, Bruno de Freitas Valbon, Francisco Max Damico, Leandro Cabral Zacharias and Marcony Rodrigues de Santhiago, who did not know that their names were associated with a totally wrong publication.

3- The immediate expulsion of the publisher Dr. Lauane Gentil, from our editorial boards and an indefinite ban on any activity within the co-proportional editor Specialized Dentistry Group.
